Profile

I'm a Frontend Engineer with 5+ years of experience in web development, currently working at PT Inspigo Inovasi Indonesia. My journey started in full-stack development, but I quickly found my passion in frontend technologies. I specialize in React, Next.js, and modern UI frameworks like Tailwind CSS and ShadcnUI, focusing on building dynamic, scalable, and accessible user interfaces.

Employment History

Frontend Engineer | PT Inspigo Inovasi Indonesia (2021 - Present)

- Built and maintained high-performance web applications using Next.js and React.
- Created customizable learning platforms for enterprise clients with dynamic UI adjustments - Inspigo For Business (IFB).
- Integrated AI-powered features using Foundation Model like OpenAI, Bedrock etc, and RAG for personalized learning experiences - Inspigo Ai (Chatbot app base).

Full Stack Developer | PT Praweda Sarana Informatika (Outsourced by PT Indocyber) (2018 - 2021)

- Developed web applications using PHP (Laravel, CodeIgniter, CakePHP) and Vue.js.
- Built a Shipyard Project Management System handling end-to-end workflow.
- Maintained and improved a Trucking Management Application with GPS tracking and analytics.

Full Stack Developer Trainee | PT Indocyber Global Technology (2018)

- Trained in C#, Java, SQL Server, Java Spring, and MVC frameworks.
- Built a Library Management System as a final project.

Education Physics - IPB University 2013 - 2017
